

Altavista Community Input Meeting

The Altavista Town Council is seeking public input on a proposed plan to reconfigure the current traffic pattern on MAIN STREET (U.S. Rout 29 Business).

A Community Input Meeting will be held on Wednesday, September 7, 2016 from 4:30 p.m. to 6:00 p.m. in Council's Chambers of the Altavista Town Hall (510 7th Street). VDOT and Town Staff will be on hand.

The proposal is to have one lane of travel in either direction and a center turn lane on Main Street from Pittsylvania Avenue to Wood Lane, the current four lane section. Input is sought by Town Council to determine whether to submit a resolution of support to the Virginia Department of Transportation (VDOT) at the Town Council's Tuesday, September 13, 2016 Regular Meeting.

For more information about the meeting, this proposal or to submit comments, please contact the Town Manager at (434) 369-5001 or via email at jwcoggsdale@altavistava.gov.
